7	7
8	8
9	9
WORST	10

A horizontal scale from 0 to 10. The number 5 is highlighted with a dark border. Below the scale, the word 'NONE' is on the left and 'WORST' is on the right.

[illegible]

☐ Got out of the house	☐ Worked a full day	☐ Exercised or stretched
☐ Ate properly	☐ Saw someone	☐ Slept through
☐ Took meds as planned	☐ Did my exercises	☐ Rested deliberately

Flare log

A flare is worth more data than a normal day. Fill this in while it is happening.

WHAT HAS HELPED

WHAT HAS NOT

Anything the structured pages did not capture.

Before you start

These pages are a personal record-keeping tool. They are not a medical device, they do not diagnose anything, and nothing here is medical advice.

Tracking is useful because it turns vague memory into specifics you can hand to a professional: when it started, what makes it worse, what you already tried. It is not a substitute for seeing one.

See a qualified healthcare professional about any new, severe, or worsening symptom. Seek urgent care for chest pain, numbness or weakness in a limb, loss of bladder or bowel control, severe headache of sudden onset, pain following an accident, fever with neck stiffness, or any symptom that frightens you.

Personal use only. You may print unlimited copies for yourself and your household. Reselling, redistributing, or sharing the files is not permitted.
